Unlock alternate character skins and the cheats menu

Nicktoons Unite! (known as SpongeBob and Friends: Unite! in Europe) is a [video game](#) featuring Danny Phantom (the titular character from the TV series), SpongeBob SquarePants (the titular character from the TV series), Timmy Turner (from The Fairly OddParents), and Jimmy Neutron (from The Adventures of Jimmy Neutron: Boy Genius) along with their respective arch-enemies like Vlad Plasmius, Sheldon J. Plankton, Denzel Q. Crocker, and Professor Finbarr Calamitous. The gameplay of the [console versions](#) is quite similar to X-Men Legends albeit more simplistic (obviously due to the fact that it was geared towards a younger audience) and with a larger emphasis on puzzles. When Professor Finbarr Calamitous steals Jimmy Neutron's plans for the 'Universe Portal Machine', the evil genius constructs his own version of the device to recruit an inter-dimensional band of Villains made up of Vlad Plasmius, Sheldon J. Plankton, and Denzel Q. Crocker. Collectively known as the Evil Syndicate, they combine their powers to create the diabolical Doomsday Device while unleashing an army of evil on the unsuspecting worlds of Dimmsdale, Bikini Bottom, Amity Park, and Retroville. Brain-blasting a plan to save the day, Jimmy uses his 'Universe Portal Machine' to scour the multiverse for a little help of his own, drafting no other than Danny Phantom, Timmy Turner, and SpongeBob SquarePants. Only by working together as a team can they defeat the villainous Syndicate and destroy the dangerous Doomsday Device once and for all.
