[Paris Hilton Drunk Elisha Cuthbert Under the Table](#)

Non-drinking Paris has proved her whiskey skills

Even though she claims she never drinks, Paris Hilton has won a "drinking competition" with Elisha Cuthbert. The two were in Australia, while shooting "House of Wax", when Paris proved her drinking skills. Cuthbert recalls: "We (she and Hilton) went out once or twice to go head-to-head on the shots. I can drink, I can hold my liquor, but I think she beat me..." "I like a Jack Daniel's (whiskey) which I turned Paris on to. Before, she was drinking some turquoise thing. I said, 'Girl, if you're gonna drink, let's do the whiskey.'" And, as Cuthbert confesses, that night Paris has drunk Elisha under the table. When one thinks that earlier this year Hilton told British Glamour magazine: "I am not a party person. I hate clubs. People think I drink when I'm out but I just have Red Bull. I'll just dance and have fun. I don't do drugs." If she only drinks Red Bull and no alcohol, that implies she was totally responsible last month, when she was spotted heading for some sex in the loo with her new boyfriend Stavros Niarchos.
