[Pokémon Diamond Action Replay Codes \(DS\)](#)

Hack your way into the Pokémon world

The game contains 107 new Pokémon and chronicles the adventures of a new Pokémon trainer who strives to become the Pokémon League Champion, collecting and training various species of Pokémon along the way. As most games in the series do, Diamond and Pearl feature eight Pokémon gyms led by Gym Leaders, professional trainers whose expertise lies in a particular Pokémon type. Gym Leaders serve as bosses and reward skilled trainers with badges of merit, key to the advancement of the plot. Diamond and Pearl begin in Twinleaf Town. After viewing a television report about a media-conducted search for a red Gyarados spotted at a distant lake, the protagonist and his/her rival travel together to check the local lake for a Pokémon like it. They spot Professor Rowan, an expert in **Pokémon** evolution and the protagonist's second rival, who is the playable character not selected: Dawn (girl) or Lucas (boy). After a short discussion the pair exits from the lake, leaving a briefcase behind. When they are attacked by wild Starly, the protagonist and his or her rival examine the case. Note: THESE CODES AND DIRECTIONS APPLY FOR THE ACTION REPLAY FOR THE DS **Action Replay Codes** Wild pokemon are shiny (Press R+A to enable, L+A to disable on trainer screen) 02064ec8 47104a0002064ecc 02000031 94000130 fcfe020002066db8 4708490002066dbc 02000001d2000000 0000000094000130 fcfe010002066db8 9501900002066dbc 90022000d2000000 0000000062000000 95019000 e2000000 0000004c95019000 900220001c28b40d f06849071c01fd4d 2901bc0d4902d101 4902470800004708 02066dc102066d9f 0000000095019000 69384a0498046010 4b019a0900004718 02064ed10200002c 00000000d2000000 00000000**All Pokemon Can learn Every TM** 0206D9A0 00D400D40206D9A4 00D400D40206DA3C E0044D00 0206DA40 FFFFFFFF To add these, do the following: 1. Install the disc that came with the AR2. Put the cord into the USB and into the AR cart 3. Put the AR cart into the DS and turn the DS on 4. Open up the program on the computer that the disc installed 5. On the upper right, open up the **codejunkies** folder for the country that you live in 6. Take the game (Diamond or Pearl) and drag it to the custom codelists box under the codejunkies box 7. Open up the folder and right click anywhere on the Diamond/ Pearl list and say add new cheat 8. Put in the name (copy and paste if desired) 9. Put in the code (copy and paste if desired) 10. Click ok, the cheat should now be added to the list with a checked box next to it, DO NOT UNCHECK IT! 11. When finished, close the LIST and drag it into the list on the left hand side of the AR window 12. When it is done you'll have the codes on your AR Check out the following video to see how the hacks work in the game:
