[Pokémon LeafGreen Cheats and Unlockables \(GameBoy Advance\)](#)

Catch 'em all and become the Pokémon Master!

Pokémon will never die, that's for sure, at least not when the games with the famous Pikachu on their cover sell millions of copies. Featuring over 150 pokemons and new evolution animations, Pokémon LeafGreen will allow the players to initiate a 2-on-2 battle with the creatures they have trained so far. Aside from that, it's the classical GBA look with the graphics we've seen in the previous Pokémon titles, at least on Nintendo's portable console. Catch **pokemons**, train them, fight other poke masters and aspire to become the ultimate pokemon master. To do that, you'll have to follow a couple of steps, use the items you can unlock and know some secrets: **Unlockables**Get the chance to get the 3 dogs!In FireRed and LeafGreen, you can get the 3 dogs depending on your starter pokemon. Here are the steps:1: Beat the Elite Four2: Randomly in the wild, you can get 1 of the 3 dogs with your starter pokemon.Entei in the wild - Your starter must be Bulbasaur. Raikou in the wild - Your starter must be Squirtle. Suicune in the wild - Your starter must be Charmander.

How to get the Three Unique attacksYou have to have gone to the second island. Your pokemons have to trust you enough and you have to have the one of three starters.(Only the one you started with can learn these moves-Frenzy Plant, Hydro Cannon and Blast Burn)Frenzy plant, hydro cannon, and blast burn - get to the second island and have your pokemon trust you enough. **Itemfinder Secrets**There are places in the game where important people/Pokemons have stood at one point. If you use the Itemfinder on the EXACT spot where they were, a special item will be found which is usually very rare. You cannot find these items any other way.

Leftovers - Use Itemfinder where the 2 Snorlaxes appeared. **Macho Brace** - Use Itemfinder where Giovanni was in Viridian Gym. **Soothe Bell** - Use Itemfinder where Mr. Fuji was standing in Pokemon Tower. **Lorelei's Doll Collection**

For each 25 times you enter the Hall of Fame, she'll add a new doll to the collection in her house on Four Island. She'll stop after adding a total of eight dolls.**New Pokemon doll in Lorelei's collection** - Enter the Hall of Fame 25 times. **Nugget on Three Island**When you first visit Three Island, you'll come across a miner looking for gold in one of the caves. If you return to him after beating the Elite Four, he'll hand over a Nugget, an item that can be sold at high prices.**Nugget** - Beat the Elite Four, then talk to the miner on Three Island. **The Pokemart on Two Island**When you first visit Two Island, the local Pokemart will be severely limited in the items for sale. trading to and from Pokemon Ruby, Sapphire, and ColosseumAt the beginning of LeafGreen/FireRed, you can only trade between the two respective versions. However, if you complete a certain task in the game, you can trade to Pokemon Colosseum on the Gamecube, and Pokemon Ruby/Sapphire, the two other Pokemon games on the GBA.

Trading to and from Pokemon Ruby, Sapphire, and Colosseum - Defeat the Elite Four, then retrieve both the Ruby from Mt. Ember and the Sapphire from Five Island Rocket Warehouse, then give them both to Celio.

Unlocking mini-games on Two IslandWhen you have access to Two Island, save the Game Corner owner's daughter, then deliver the package. The grateful owner will open some mini-games that you and your friends can play.

Mini-Games on Two Island - Save the Game Corner Owner's daughter, then deliver the package.

Easter Eggs**Shiny Pokemon**Every time you encounter a pokemon, you have a 1/8192 chance of the pokemon being a different color, this is called a shiny pokemon.

Glitches**Saving Time in the Safari Zone**When you are in the Safari Zone, it counts the number of steps you take to determine the amount of time you have left. Well, if you want to catch a rare pokemon, but don't want to run out of time, enter the grass, then lightly tap the directional pad. You will change the way you are facing, but it will not count as a step. You can have near-infinite time in the Safari Zone doing this. It is helpful when some Pokemon, such as Chansey, appear in only one section of the Zone.

Secrets**Determining Pokemon's feelings towards you.**When you use an item on one of your Pokemon outside of a battle, such as a Potion, the Pokemon will either move closer or away from you in the short intermission sequence. How far the Pokemon moves depends on how much it likes you. If it does not move at all, it feels neutral.

Ditto BreedingYou don't need to find one pokemon of each gender in order to breed them. You simply have to put your pokemon of choice and a ditto into the daycare center. After a short while, the old man will tell you that they found an egg, and when it hatches, it will be whichever pokemon you matched up with Ditto.

Easy moneyOn Island 5, there is an area to the northeast called Gorgeous Resort. There are 2 wealthy trainers you can face. They are named Lady Jacki and Lady Gillian. Lady Jacki gives you \$10000 if you beat her (\$20000 with Amulet Coin) and Lady Gillian gives you \$9800(\$19600 with Amulet Coin). The pokemon they use also carry expensive items. Jacki's 2 pokemon carry Stardust, Gillian's 2 Mareep have Stardust, and Gillian's Flaafy has a Nugget. Just use Thief or Covet to obtain these items.

Free CoinsIn the Gamecorner in Celadon City, go talk to the man at the far right Slots. He will give you 20 free coins. Talk to the man on the slots beside him. He will give you 20 free coins, also. Go to the left side of the Gamecorner. Talk to the guy that looks like a fisherman, and he will give you 10 free coins.

Loose change in Game CornerApparently, the folks in the Game Corner don't hold on to their coins very well!By using the Itemfinder or looking by yourself, you'll find that many spots in the Game Corner have some number of coins lying on them. If you find them all, you'll find 200+ coins!
