Princess Natasha Cheats (DS)

Gadgets, levels and level passwords

Princess Natasha is a game based on a flash animation series and it has been published on Gameboy Advance and [Nintendo DS](#). The animated series was broadcasted live for over two years (between 2004-2006) and Nintendo considered it would be a great idea to turn it into a game. We all know that, ever since Mario was invented, [Nintendo](#) has known how to turn strange little characters into gold, and this was their quest with Princess Natasha too. Keeping in mind that there haven't been hundreds of sequels to it (still, reaching the glory of Mario is a hard thing to do), they have obviously failed. However, the game was appreciated by lots of people and, therefore, we have prepared for you a list of cheat codes to help you with the game. We, here at Softpedia, would suggest trying the game without any cheat codes - that's the proper way of experiencing real games, but we also understand that sometimes games can prove to be a bit too difficult to complete or that you might have time-related problems and you want to go through the game more quickly. That's the real reason we are bringing you these cheat codes. But let's get straight to the point: Please note: the spaces between the passwords of the levels are mandatory. **CHEATS All gadgets** Enter **OLEGSGIZMO** as a code. **Extra levels** Enter **SMASHROBOT** as a code. **Unlimited lives** Enter **CRUSHLUBEK** as a code. **Level passwords** 1-1 - DBGJZ 00014 1-2 - 8VN51 D002H 1-3 - 8VNBD F004X 1-4 - 13Z1B £0059 1-5 - 13ZQM &00%X 1-6 - 14158 000F1 1-7 - 1434\$ 100£8 1-8 - 199D\$ 500LB 1 (Boss level) - 19KLY L00&1 2-1 - 18Y6G &6BK5 2-2 - 18YJS 26BP4 2-3 - 18YKR 76BS5 2-4 - 18YR3 V6B*C 2-5 - 1905P kWH 2-6 - 1£Z*9 K6C1F 2 (Boss level) - ZZZQC 26C4Z 3-1 - 22WYS 8CN42 3-2 - 22X0\$ 4CN54 3-3 - 22X3L 6CN76 3-4 - 22X9X JCN77 3-5 - 22XML 3CN85 3 (Boss level) - 22YBW BCN9B Here is Natasha enjoying the Gameboy Advance:
