## [Pursuit Force: Extreme Justice Cheats \(PSP\)](#)

### *Win all your races*

Pursuit Force: Extreme Justice will have players take the role of a commander who is the highest ranking operational officer as well as four new playable characters, all of which are responsible for tracking down and bringing to justice five hardcore street gangs in and around Capital City. As members of a special police unit known as the Pursuit Force, this time around, players will engage in high-speed action on land, in the air and at sea, in their constant battle to rid the city of crime which includes three new gangs.

As mentioned in the introductory paragraph, the game will be featuring some 50 criminal cases set among seven distinct environments, where players will have access to 12 different vehicle types, including hovercrafts and boss vehicles, specifically designed for boss encounter missions. An arsenal of weapons will also be available for players in the pursuit of justice. However, what's probably the best thing about Pursuit Force: Extreme Justice is that it will also introduce multiplayer capabilities to the franchise, with up to four players in Ad Hoc mode.

### CHEATS
