## **Renee Zellweger Denies Meeting with Ex-Husband**

### *No getting back together for Renee and Kenny*

In Touch magazine claimed Renee Zellweger and ex-hubby Kenny Chesney **were spotted** having two romantic meals, and there are chances for the two to get back together. According to some onlooker and restaurant staff members, the former couple have enjoyed each other's company and looked like they were still together. "They just kept looking at each other... They were cuddling during their meal", witness Anna Hernandez who spotted the couple at intimate Italian restaurant Mario's in Rock Hill, Connecticut, told In Touch Weekly magazine. But the actress denied such rumors. Her spokesperson has dismissed the allegations made by In Touch magazine, adding: "She (Renee) and Kenny are not getting back together and they are not dating." The couple announced their breakup in September, after a 128 days marriage, the reason quoted in papers being "fraud". Last month, country singer Kenny Chesney confessed about losing Renee: "It was like opening the door to our house and having someone come in and take your big-screen TV off the wall during the big game, and there's nothing you can do about it."
