"Ride" The Music with The Digital Cowboy MP3 Glasses!

The glasses are soon to be available

I have to admit that fashion and gadgets are two of my favorite things. So, it's only natural to be interested every time someone combines the two of it. The MP3 player is, undoubtedly, the most popular technology today, while the sun glasses are always going to be the dandiest way to protect your eyes against the UV rays. Apparently, the Digital Cowboy did what Nu Tech Dark Shadow, Oakley and many more companies did, at higher expenses. It created a pair of sunglasses that are capable of both protecting your eyes and entertaining you. The Digital Cowboy has just released a pair of these glasses, that would have definitely pleased James Bond. Imagine yourself on a Harley with a pair of those, keeping you entertained while you're riding that beauty. The most impressive feature is, nevertheless, the integrated MP3 player, which can play all your favorite Iron Maiden albums. It supports WMA file formats, as well. The bit rates supported range varies from 64kbps to 320kbps. It comes with a generous 1GB internal memory, enough to store most of your favorite music. Is there a microSD memory card slot? And if we add a miniature TV set to the recipe, we'll get the coolest pair of sunglasses ever, as long as the owner is not the one who's riding the bike...for safety reasons, of course. The revolutionary MP3 player features a price tag around 30 bucks, so it can be considered quite available. I just wonder if any of the big fish in the fashion industry out there would like to add some glamour to the recipe. If not, it's OK, I am sure that many out there who would like to listen to music using this device. The best idea would be to make the pair of sun glasses water proof, to enable the user to go into the pool with them. We are just a few, but there are many of you, Softpedia users, out there. That's why we thought it would be a good idea to create an email address for you to help us a little in finding gadgets we missed. Interesting links are bound to be posted with recognition going mainly to those who submit. The address is .
