## [Stronghold and Stronghold Crusader Cheats](#)

*People are terrified by you milord!*

The medieval city managerial strategy game Stronghold has gathered tons of fans from day one. Firefly Studios really pulled an ace off their sleeves as they combined the city management strategies everybody loved in the SimCity series with the strategic army battles at the edge of the settlement. It was amazing to be able to keep an eye for the well being of hundreds of townsfolk while also being able to keep a strict eye on what the soldiers are doing. Building up the strongest keep in the region was a wondrous task and the varied possibilities to accomplish that were more than satisfactory. Unlike the Caesar series that it also resembles, you are now able not only to satisfy all your people's demands for luxury, housing and jobs. People also respond to threat and placing some monuments of cruelty like the gallows in strategic locations of your city may have the same result as providing the people with 4 meals a day. After the success of Stronghold, it was only a matter of time before this new born series got extended. The first expansion (a standalone) was Stronghold Crusader and it was greeted just as warmly. Send your archers up on the walls, get the bakers back to work and check out a few cheats that will make your day. In order to activate the cheats you need to press SHIFT + ALT + A while you're in the Main Menu. Now, during gameplay you can press any of the following combinations to receive your reward.

- ALT + K – free building, no resources are required
- ALT + X – increases your popularity by 100 and adds 1000 gold to your stash
- ALT + G – destroy main stronghold
- ALT + C – cycle characters hit
- ALT + L – level up one unit
- ALT + P – level up characters
- ALT + F – everything is free (upgrades and purchases)
- ALT + Q – faster gameplay
- ALT + Z – defeat selected enemy
- ALT + Y – defeat all enemies
- ALT + S – time shift
- ALT + D – enter DEBUG mode

These cheats work just as well for Stronghold Crusader. May you enjoy them both, milord!
