Summer Fragrances: Escada Moon Sparkle

A light, fruity treat that captures the very feel and taste of endless summer

If you're thinking of buying a new, summery perfume and have no idea where to start the browsing and the sniffing, here's a delicious suggestion: the new Moon Sparkle from Escada could be just what you're looking for. If you have already set your mind on a sweet yet fresh, citrus-light summer scent, Moon Sparkle is definitely the one for you. It's not heavy or too sweet, it lacks the depth of the more dense winter fragrances and it will definitely put you in a lively, vibrant mood thanks to its fresh fruit sweetness. Moon Sparkle (eau de toilette) is set to remind you of the traditional depictions of summer: a season of abundance, when you could treat yourself to colorful, tasty fruit, and spend most of your time outside, enjoying the warm, languid evenings that always seem to go on forever. The fragrance opens on top notes of strawberry, blackcurrant, citrus and red apple. The strawberry note may leave you with the impression that Moon Sparkle is essentially sweet, but that's simply not the case - its purpose there is to lend its own distinct scent and, at the same time, to "tame" the slightly piquant citrus notes. The core floral notes of freesia, sweet pea, jasmine and rose blend well with each other and give the perfume a more sophisticated feel. The base note combines delicious musk and the more classic sandalwood and amber with an unexpected touch of raspberry, which makes a considerable difference, lending the perfume an overall fresh fruity flavor and marking a more subtle and classy return to the fruity opening note. Moon Sparkle is a light-hearted fragrance, ideal for hot summer days at the beach and leaving you with the unmatched feel of a beautiful summer.
