## [TOCA Race Driver 3 - Cheats](#)

*Everything you'll ever need from a race simulator*

The game's single-player mode is split into 2 different modes, "World Tour" and "Pro-Career". "World Tour" is where the player progresses through 32 tiers of different disciplines; the player is coached by a man called "Rick" via the game's cut-scenes (the cut-scenes can be viewed again via the "Extras" menu). "Pro-Career" mode is more detailed, with over 150 cups to win. There is also an online mode for various platforms in which you can race a number (the actual number of people you can race depends on the platform used) of other online players to win points. It is also possible to unlock series with the online mode of the game.

**Choosing your own bonus code** Use the following trick to change your bonus code. For example, if you want to use the cheats for "7510" but your number is different.
