## [Tokyo Game Show Xbox 360 Line-up](#)

### *The next generation games*

Tokyo Game Show marks a first time for the consumers to experience the power of Xbox 360. A number of key titles that would make any PC owner envious will be on display at the Xbox 360 booth; there will probably never be such a massive number of good games on display for the rest of us... These are the good ones: (eM)-eNCHANT-arM" (FromSoftware Inc.); Bomberman - Act Zero" (Hudson Soft Co. Ltd.); Call of Duty® 2" (Activision Inc.); CHROMEHOUSES" (Sega); Dead Rising" (Capcom); Dynasty Warriors 5 Special" (Koei Co. Ltd.); Everparty" (Microsoft Game Studios); Far East of Eden - Ziria" (Hudson Soft); FINAL FANTASY XI" (Square Enix Co. Ltd.); Frame City Killer" (Namco); Gears of War" (Microsoft Game Studios); Kameo™: Elements of Power™" (Microsoft Game Studios); Mobile Suit Gundam" (tentative title) (Bandai Co. Ltd.); Need for Speed Most Wanted" (Electronic Arts); NINETY-NINE NIGHTS" (Microsoft Game Studios); The Outfit™" (THQ); "Project Gotham Racing® 3" (Microsoft Game Studios); Resident Evil 5" (Capcom); Ridge Racer 6" (Namco); Rumble Roses XX" (tentative title) (Konami); Shutoku Battle" (tentative title) (Genki Co. Is the Xbox 360 really that expensive? Because, honestly, I just have to have one!
