[The Fast and The Furious Cheats and Hints \(PSP\)](#)

Something to help you win those races

The Fast and The Furious is a videogame published by Electronic Arts and Namco-Bandai alongside the movie The Fast and The Furious: Tokyo Drift in 2006. Inspired by the events of Universal Pictures' upcoming film, The Fast & The Furious: Tokyo Drift, this game will immerse players in the underground world of drift racing.

Set in a world related to the movie, it features groundbreaking drift mechanics, making it accessible to both beginner and veteran racing game drivers. In terms of gameplay, it features revolutionary new systems, like the Drift Indicator, that make The Fast and The Furious the most accessible yet realistic drift game ever!

Perched at the forefront of the drift racing phenomenon, the video game combines groundbreaking gameplay mechanics with unprecedented speed and authentic underground cool, which position it as one of the must-have drift racing titles of 2006. Among the several key features we have the revolutionary drift model, which enables the drift races to be accessible to any kind of player, with the help of assists for the newer ones. Complex car models are also a big thing in this game, being one of the best looking ones for the PlayStation Portable. And most exciting are the loads of customization options, with parts from over 500 Japanese firms.

CHEATS

\$100

Start a new game and enter KICHIMI as a player name.

HINTS

Easy drifting

Purchase a 2003 Subaru Impreza WRX STi V-Limited (AWD) and put on the following upgrades.

Level 4 Nitrous (optional)

Level 4 Exhaust pipe

Level 5 Ignition System (must unlock)

Level 5 Supercharger (must unlock)

Level 4 Intercooler

Level 1 Suspension

Level 3 Drift Tires

Valve Stem LEDs (optional; more weight)

If done correctly the results will be:

Cost: \$49,120

BHP: 586

Weight: 3907

Torque: 562

If desired, purchase The 2006 Chevrolet Corvette C6.R for \$250,000 (U.S. dealership). Note: This car is already modified for racing and will not need any upgrades. It is a LeMans car and will have touchy steering, even at speeds of 150mph and above. Its stats are:

BHP: 570

Weight: 2437

Torque: 620

Drive: FR

 If you want a fast car for about \$120,000, purchase a 2006 Chevrolet Corvette C6 for \$65,850 (not the C6R). Put on the following upgrades:

 Level 4 Nitrous (\$1,350)
Level 4 Intake and Exhaust (\$2,085)
Level 4 Fuel and Ignition System (\$750)
Level 4 or 5 Turbocharger
Level 4 Intercooler
Level 4 Suspension (\$6,000)
Level 4 Brakes (\$5,200)
Level 4 Transmission (\$4,600)
Level 4 Clutch & Flywheel (\$3,295)
Level 4 Weight Reduction (\$5,800)
Level 4 Tires (grip tires) (\$1,500)
Level 4 Differential (\$2,800)
Level 4 Oil Change (\$800)
Universal Rear Spoiler Type 4 (\$350)

 Optional Parts:

 Light Clusters (\$250)
AME Rims Tracer Spec-M (\$2,800)
Under-car Neons (\$200)
Valvestem LEDs (\$40)
Window Tint (\$200)
NOS Purge (\$40)

 The result will be a car with 700 BHP and 225 Mph that is worth about \$120,000).

 Fast cars

Use the following items to make a 1986 Toyota Levin go over 210 mph. Its specs are as follows:

 BHP: 548

Weight: 2058

Torque: 376

Cost: \$68,693

 Buy the following items for it:

 '85 Toyota Levin (\$8,040)
Level 5 nitrous (must be unlocked) (\$2,000)
Level 4 Exhaust Air Intake (\$2,781)
Level 5 Fuel Ingection System (must be unlocked) (\$5,000)
Level 5 Turbocharger (must be unlocked) (\$7,195)
Level 5 Intercooler (must be unlocked) (\$2,500)
Engine Swap (\$15,000)
Level 4 Suspension (\$6,429)
Level 5 Brakes (must be unlocked) (\$5,200)
Level 3 Transmission (Top Speed)(\$2,500)
Level 4 Clutch and flywheel (\$3,295)
Level 4 Weight Reduction (\$5,800)
Level 5 Grip tires (must be unlocked) (\$1,600)
Level 4 differential (\$2,800)
Level 5 Oil Change (must be unlocked) (\$1,000)
Full wide body kit (\$1,500)

 Note: If you want a cheap car to be even faster, add the same upgrades to a Sprinter Trueno for a top speed of 240 mph.

 Here's a video:
