## [The Incredibles: Rise of the Underminer Passwords \(GameCube\)](#)

### *All levels unlocked and easier gameplay*

Following [The Incredibles'](#) defeat of Syndrome in the Walt Disney Pictures presentation of the Pixar Animation Studios film, a new threat emerges beneath the ground with a diabolical plot to pollute the major cities of the world and rule over humanity from below. Fans will be able to pick up from where the film left off and relive the glory days as Mr. Incredible and Frozone, superhero best friends who team up to tackle a new villain, The Underminer. When the evil Underminer rises to the surface with a sinister plan to rule the world, it's up to [Mr. Incredible](#) and his super cool pal Frozone to save the day. While Mrs. Incredible, Violet, Dash, and Jack-Jack take care of things topside, Mr. Incredible and Frozone race underground to put a stop to the Underminer's dastardly plans and bury the diabolical baddie once and for all! The game starts off with the final movie scene in which the Parr family walked out from Dash's race, the Underminer drilled out of the ground and monologued on how he will rule the world, as the Incredibles got into their suits and prepared for battle. The game then takes its own line as the Incredibles face off against a new enemy called the Underminer. Here's a list of passwords, you'll probably want to use while playing the game:

**Passwords**  
**Codes**Go to the secrets menu and enter the password.
