[The John Lewis Retro DAB](#)

Modern radio in an old shell

Cool digital radio with a retro touch
JohnLewis

Radio has come quite a long way since its childhood, and from the all-tube stations to the all-digital ones the gap seems infinite. Yet, some designers seem to look at things from a different point of view, at the same time being able to mix in elements from both worlds: the extended functionality and high-class audio quality of the digital radio with the familiar and warm look of the retro tabletop units. It's the case of the John Lewis DAB Clock Radio, a most nifty piece of audio gadgetry that will instantly add richness and refinement to any room, whether you're thinking about your bedroom or your office. Equally suitable for your bedside and your workplace, this small radio will let you enjoy your fav radio programs and your preferred music while at the same time allowing you to benefit from all the advantages of digital broadcasting. With a very intuitive design and easy operation, the John Lewis Retro DAB also comes with an automatic dimming display for your increased comfort. You'll surely enjoy the 4 different alarms that can be individually configured to wake you up to tone, DAB or FM; and if you have busy weekends, you can also specify different settings for Saturdays and Sundays. You'll be able to set up to 20 preset stations so you can get to the info or music you're looking for with one simple click. The John Lewis Retro DAB comes with a three-year guarantee and it is available in both black and white finish, each with a different wood trim. The price tag reads around [\\$100](#) and this could mean that the John Lewis Retro DAB can be a very cool Christmas gift for someone you care about or, why not, for your very self.

We are just a few, but there are many of you, Softpedia users, out there. That's why we thought it would be a good idea to create an email address for you to help us a little in finding gadgets we missed. Interesting links are bound to be posted with recognition going mainly to those who submit. The address is .
