[Three New and Slim LG Phones Launched in India](#)

[LG KF510, LG KP320 and LG KP110](#)

LG KF510
LG

The mobile division of LG has recently announced the availability of three new handsets for the [Indian](#) market, targeted for different categories of users: LG KF510, LG KP320 and LG KP110. The most expensive (and advanced, at the same time) of them is LG KF510, a slider that comes with a touch-sensitive navigation pad, allowing users to easily navigate through the phone's menus and functions, in a unique mobile experience. Measuring only 104.5 x 49.5 x 10.9 millimeters (when closed) and weighing 91 grams, the KF510 features a 2.2-inch TFT display with 240 x 320 pixels and 256K colors, a nice 3.15 Megapixel camera with auto focus, flash, image stabilizer and video recording, Media player, FM radio, email and Internet capabilities, Bluetooth 2.0 with A2DP and so on. KF510 will be soon available across [India](#) for a retail price of 12,250 INR (a bit over \$290). LG KP320 is another handset that offers a 3 Megapixel camera with flash, auto focus and video recording. Unlike the KF510 though, KP320 is a candybar with a display a bit smaller: 2 inch (256K colors and 240 x 320 pixels). Weighing 81 grams and measuring 107 x 46 x 13.5 mm, KP320 also features TV-out, Media player, Bluetooth, FM radio, USB, document viewer, Web and email capabilities, 90MB of internal memory and microSD card support for up to 4GB. The price of the candybar is 7,990 INR, meaning around \$190. At only 50 grams, LG KP110 is one of the most lightweight mobile phones currently on the market. The handset is targeted for users who want an affordable music handset and its full dimensions are 103 x 46 x 13.4 millimeters. Among its features, we have dual-band GSM connectivity, GPRS, a 1.5 inch display with 65K colors and 128 x 128 pixels, Music player, FM radio, WAP browser, USB, Java MIDP 2.0, 64MB of internal memory and microSD card support for up to 2GB. The battery included in KP110 is a 800 mAh one that should be capable of providing up to four hours of talk-time and up to 400 hours of stand-by. LG KP110 can be bought for only 2,899 INR (around \$70), with a stereophonic headset kit included in the package. All in all, the three LG handsets represent a nice addition to the South Korean's line-up of phones available in India, and users will surely be attracted by the new devices.
