[Tom Clancy's Splinter Cell Chaos Theory Codes and Passwords \(GameCube\)](#)

The only competition for the Metal Gear Solid series

Tom Clancy's [Splinter Cell](#): Chaos Theory is a critically acclaimed third-person stealth-based video game developed and published by Ubisoft. Chaos Theory is the third game in the Splinter Cell series endorsed by writer Tom Clancy. The game follows the covert activities of Sam Fisher, an agent working for a black-ops branch of the NSA called "Third Echelon." Though originally announced for release in fall of 2004, the actual release date was March of 2005 for the Xbox, PlayStation 2, GameCube and PC. Actor Michael Ironside still plays Sam, while Don Jordan returns from the original game to voice Lambert, having been replaced by Dennis Haysbert in Splinter Cell: Pandora Tomorrow. The graphics in [Chaos Theory](#) feature a number of improvements, including the addition of normal mapping and HDR lighting. The game also features a number of major changes and improvements to the series' basic gameplay.
