[Tom and Jerry Tales Passwords \(GameBoy Advance\)](#)

The best cartoon in the world got turned into a hit title

[Tom and Jerry](#) Tales is an animated television series, currently airing on The CW's Kids' WB block. As the title suggests, this series contains characters from the Tom and Jerry cartoons and also is the first made for TV iteration of the cartoons to emulate the theatrical shorts. It grew from the direct-to-video movies *The Magic Ring*, *Blast Off to Mars*, *The Fast and the Furry* and *Shiver Me Whiskers*. On November 2006, a [video game](#) based on the show was released for the Nintendo DS and Game Boy Advance. You play as Jerry to get Tom in trouble. Many cameos from the show make appearances in the game such as the female robotic mouse from the short *Hi, Robot*.
