[Tony Hawk's Pro Skater 3 Codes and Unlockables \(GameCube\)](#)

"Heaven is a half-pipe"

Tony Hawk's Pro Skater 3 is a video game in the Tony Hawk's Series. It was developed by Neversoft and published by Activision in 2001 for the Nintendo GameCube, Game Boy Color, PlayStation 2 and PlayStation. In 2002, it was published for the Nintendo 64, Xbox, PC and Game Boy Advance. It was the first game released for the Playstation 2 supporting online play and the last game ever released on the Nintendo 64. This game saw the introduction of the revert, a trick that enabled vertical combos to be tied together with a manual, by tapping a button when landing in a quarterpipe. This allowed for much longer combos than in the previous two games, wherein landing in a quarterpipe would finish a combo. The game also added hidden **combos**. These were variations on standard tricks that could be performed as grab, flip, lip, or grind tricks. For example, double-tapping the kickflip button would, naturally, make the character perform a double kickflip. This system would later be refined in Tony Hawk's Pro Skater 4.
