[Trouble in Paradise: Did Tony Cheat on Hot Housewife Eva Longoria?](#)

Someone sure isn't getting any new toys this Christmas... I just don't know who at this point

Trouble in paradise... and yes, it's a full-scale celebrity scandal the likes of which we haven't seen in a while. I know, I'm not supposed to enjoy this - but we all have our little vices and guilty pleasures, especially when it comes to picture perfect people and picture-perfect marriages and picture-perfect weddings that are totally over-rated... well, you get my point. And this time, the "cheating bastard" husband-fools-around-behind-wife's-back routine is performed by... none other than Tony Parker, husband to that lusciously narcissistic "Desperate Housewives" star Eva Longoria. The story goes like this. A French model by the name of Alexandra Paressant has stepped forward and is claiming that she had sex with Tony Parker at the Park Hyatt Hotel in Paris at the end of September this year. Gossip site X17, which broke the story, quotes Paressant as saying "I met Tony at Hyatt Park and we spent wonderful moments together. We had room service. He said that Eva, sexually speaking, does not want to do certain things. She does not want to make love in front of a mirror, does not like certain positions and thinks that sperm gives you acne". Truth be told, this French model we're talking about doesn't have a very clean history, on the contrary. In fact, she once dated the famous Brazilian football star Ronaldinho, and ended up being sued by him in 2006 after the Football World Cup in Germany, because she was a very naughty girl and did a very, very bad thing: she went to a newspaper and sold a story according to which Ronaldinho didn't take part in team practice during the World Cup because he was too keen to... ahem, party with her. So you see, with a cupboard stuffed with skeletons, she's not exactly the person we'd believe 100% - not even close. However, she sure seems to give a lot of exact dates and to know a whole lot of details - so maybe we can't dismiss all her story as entirely not true, either. Paressant claims that she had sex with Parker on several other occasions too, and that she even visited the basketball player in San Antonio. "Everybody has to get married at a point, but for him it is still time to enjoy life. I don't think she[Eva] knew about it. She seems quite jealous. I asked him if he wanted children and he told me, 'Certainly not for now.' When I asked him what would happen if people learned of our relationship he said, 'People can think whatever they want'", she added - rather shamelessly, I would dare add. Both Eva Longoria and Tony Parker have, of course, declared that the accusations are completely false and that they trust and love each other to death. Well, those were not their exact words, but it was something along those lines. We'll be sure to keep you up to speed with all the racy details - so stay tuned.
