The New York Post's Page Six reported about a forthcoming interview with Jennifer Aniston for US magazine Vanity Fair, where the actress confessed that the real reason for divorcing Brad Pitt was because he was cheating on her. "She has said she did want babies with Brad and that starting a family wasn't the issue. The issue was Brad cheated ... and she is appalled by the family photos coming out in the W [magazine]," Page Six says Jennifer told Vanity Fair. Jennifer is reported to talk about Brad Pitt and Angelina Jolie having a child, too. Vanity Fair denied rumors about the article, saying Page Six is making this up. The magazine stated that there wasn't an interview with Jennifer Aniston yet. But Richard Jonson from Page Six is sustaining the story. "Let's see what they have to say when the issue comes out," Johnson says of Vanity Fair. The only interview with Jennifer Aniston after the break up with Brad Pitt has been for Access Hollywood's Billy Bush back in March. "Don't you feel like people are pulling for your happiness out there?" the host asked Jennifer. "Oh, 100 percent. There's always going to be the rough and the nasty, but you always tune out to that because people, for some reason, have to do that," Aniston admitted.
