Guess I'm winning...

[Video Strip Poker Supreme Maya Demo Available Here!](#)

Check out the game's new Asian beauty, Maya

While everyone's playing the Pirates of the Caribbean trademark dice game, we're taking our time while playing Video [Strip](#) Poker Supreme. There's even a [review](#) of this game you can check out right here, but let's leave conversation aside (just like the girls do while playing poker) and pass to downloading the new demo, Maya, right [HERE](#). Torquemada Games have released the above-mentioned demo version of the acclaimed videogame for PC and you'll surely like to know that the title features DVD-size video screen and "state-of-the-art video quality". Add a couple of speaking opponents in the mix and a realistic behavioral patten and you've got yourself a major hit title. Keep in mind that in the demo you'll download by accessing the link above, only one opponent girl is available, Maya, an exotic Asian beauty. Want to find more about the game? Here's a **full feature list**:

- QUALITY** - the game is a real rarity for tasty erotica and top video quality lovers. Hundreds of video shots, big screen (720px wide DVD size!), moody music and truly beautiful opponents gives mutiple opportunities to achieve the real bliss: combination of exciting game with a subtle flirt.
- INTERACTIVITY** - the opponent girls behave like they were real. They comment on the deal, smile, laugh or get angry depending on the deal result. Additionally, we developed some interactive features of the classic strip poker game. For instance, you can ask a girl to show you more than you actually won or offer her a drink to make playing with her easier.
- POKER** - worldwide known classic draw type poker game. You can choose the deck from 7 to A which makes the game very dynamic. Also, if you are classic american draw poker enthusiast you can play with the full deck from 2 to A. There's no jokers in the game. Beginners will surely appreciate the prompter which is very helpful when the player is not sure which cards he should draw. Thanks to the game's features including the prompter it's amazingly easy to learn poker with Video Strip Poker Supreme.
- STRIP-PLAYER** - during the game you can play, replay, pause or skip the striptease clips. Also you will get one "heart" for every game you win. Each heart allows you to view freely one stage of the striptease, even if you don't want to play cards at the moment.
- ONLINE LIVE UPDATE** - this button allows you to check instantly whether there are any new opponents for the Video Strip Poker Supreme or to upgrade the game engine via live update. You need to be connected to internet to make use of this feature.
- PERSONALIZE** - you can change game's appearance by changing theme/skin , soundtrack, card deck. Also you can play fullscreen or in a window if your screen is bigger than 1024x768.
- VSP FILES** - the game is a unique interactive player of strip poker games. The vsp files actually contain game opponents - you can run the game just clicking on them like you do with mp3, avi, doc, xls and many other files.
- BOSS-KEY** - you can hide the game window anytime instantly by pressing the space key on your keyboard
- LANGUAGES** - being a real multicultural entertainment the game was translated into many languages: english, german, french, polish, italian, czech, russian, spanish, portuguese, dutch. Buy the full full version of this title, from the game's [official site](#).
