## [WWE SmackDown! vs. RAW 2006 Secrets \(PS2\)](#)

### *Perform Casket Finishers and make the Royal Rumble matches easier*

Building upon the success of last year's WWE SmackDown! Vs. RAW, which shipped more than two million units worldwide, [WWE SmackDown! Vs. RAW 2006](#) adds all new features, while refining what made the original a hit with both wrestling fans and casual gamers alike. The newly created "Momentum System" will recreate the real life emotional peaks and valleys of an actual wrestling match. The addition of a "Stamina System" will force players to play more strategically by conserving their energy in order to maintain stamina throughout the duration of a match. [WWE SmackDown! Vs. RAW 2006](#) will also feature an extensive online component, creating a virtual WWE community where fans can face-off in intense wrestling competition.

**Secrets**  
**Easier Royal Rumble Match in Season Mode** When you are at the Royal Rumble match in Season mode, choose to skip it. After a short cut-scene about how the winner of the Rumble switched his entry number, the match will restart. It will now be a Six Man Battle Royal. Your superstar is always included in this Battle Royal, even if his entry number was 1 or 30. This means you don't need to worry about raising up your number in the Ironman or Triple Threat matches.

**How to do Casket Finishers** To do a casket finisher store one finisher and get your momentum full so the bar is flashing, when it is Irish whip your opponent into the casket and press L1...this will do a casket finisher and end the match without having to close the casket lid.

**John Cena's spinner WWE Title belt** First you need to unlock the WWE Title in SmackDown! season by winning it in Wrestlemania. After you unlocked it, challenge the champion in Exhibition mode. After winning the match, you're given the choice what belt to have, the original WWE Title or John Cena's spinner WWE Title.

**No long term injuries in GM mode** In GM mode, go into rosters and then into free agency. Go into the turn wrestler on/off screen. Turn your injured wrestler off and then exit. Go back in and turn him back on. (Note: You will have to wait 1 week for the wrestler to be back in the free agency and you will have to sign him again, this also means that any rivalry with the superstar will be terminated.) You can do this as many times as you like.

**Parking Lot Brawl - Secret Area** When in the Parking Lot Brawl, grapple your opponent and punch him so you can drag him by his hair. Take him to the WWE big rig diesel and hit O. The side of the diesel will open and you can go inside of it. Here's Homer Simpson ready for a fight:
