Get all the cards

Wangan Midnight is an ongoing seinen racing manga series created by Michiharu Kusunoki that has been serialized in Kodansha's Young Magazine since 1992. In 1999, it won the Kodansha Manga Award for general manga. The series has been adapted into several live action feature films, video games, and an anime television series. The anime began airing in Japan on June 8, 2007, on the anime satellite television network Animax, produced by OB Planning. The story gets its roots from the actual street racing that occurs on Tokyo's Shuto Expressway, one stretch of which is known as the "Wangan", literally meaning "bay side" (although it is generally used to refer to the freeway), the longest, straightest road in the entire country [3]. Of course, there's also lots of traffic to contend with, including a fair number of heavy trucks. Because of this, the action is inherently hazardous, and wrecks are common. Blown engines are also a frequent hazard, especially with the extremely high power engines. **UNLOCKABLES** Cards Unlock the following cards to get the corresponding effects.
