## Windows Vista gets on the Bus

*Feast your eyes on the pictures of the Vista coach*

Windows Vista gets on the bus is a literal expression. It is actually on a coach that Microsoft is using to promote the operating system across select locations in the United States. The Windows Vista Coach tour was announced by Nick White, Microsoft Product Manager, four days ago. As part of the "Wow starts now" marketing campaign, the Redmond Company has decided to bring the Wow to the users instead of the other way around. Between 16 and 24 January, Microsoft and AMD have joined forces on the Vista coach that will be visiting Nashville, Lexington, Cincinnati, Columbus, Pittsburgh, Philadelphia, Baltimore, Washington, DC, Charlotte, Savannah, Jacksonville, Orlando, Gainesville and Atlanta. Nick White also promised that the coach will make various pit stops at locations across the way, from Nashville/Lexington/Cincinnati/Columbus to Athens/Nashville. After recovering from yesterday's typical airline snafus of inordinate flight delays (all of us were affected) and lost luggage (2 of us were affected), and battling some extremely cold weather, the coach showed up at our hotel late in the morning and we got our first glimpse of what will be our home during the waking hours for the next 8 days," revealed Nick White. The adjacent pictures, also courtesy of Nick White, feature both the inside and the outside of the Windows Vista bus. At the exterior, you might recognize the design from the Windows Vista energy theme. Also, you are able to see why I said that Microsoft and AMD joined forces. Today, January 17, the Vista Bus will go through Cincinnati, Columbus and onward to Pittsburgh. "Noon: stop for lunch at the Prime outlets outside Jeffersonville - mid-afternoon: Ohio State University campus - evening and/or Thursday AM: Pittsburgh," White said. **RESURSE**[Windows Vista Goes on the Coach Tour](#)[Microsoft to Debut Vista Discounts](#)[Texas Hold 'Em in Windows Vista](#)[Vista Will Not Guarantee Protection against Malware](#)[Swap the Behavior of the Windows Vista Power Button](#)[Windows Vista Maximum Supported RAM](#)[Download the Windows Vista DVD Covers](#)[Zip and Unzip in Windows Vista](#)[Life After Windows Vista](#)[Take Control of the Vista Explorer](#)[Windows Vista Boot Generator](#)[Is Your PC Ready for Windows Vista?](#)[Windows Vista Phone Activation Crack](#)[XP Reigns Supreme in 2006](#)[Windows Vista's Details](#)[Add Check Boxes to Explorer Items](#)[Symantec Wants Control Over Vista's UAC](#)[Windows Server Home and Windows Live Drive](#)[Vista - a \\$6 Billion Dollars Operating System](#)[Download Position Changer Add-In for Media Center](#)[Microsoft Is Force Feeding OS Upgrades to Support-Less Windows Users](#)[Microsoft Confirms NSA Feedback with Vista](#)[Microsoft Unveils Virtual PC 2007](#)[Microsoft Resolved Vista and Office 2007 Product Key Issues](#)[Feast Your Eyes on the Windows Vista Launch Kit](#)[Windows Vista Security Guide 1.2 Available for Download](#)[Extend the Windows Vista 30 Days Evaluation Period](#)[Microsoft Has Been Shut Down!!!](#)[64-bit Windows Vista Timer Stopper Crack Available](#)[Microsoft Pulled Windows Vista from Amazon.com](#)[Attack Vectors in Windows Vista](#)[Burj Al Arab Has Windows Vista in Every Room](#)[Windows Vista Families](#)
