[Yougetitback Can Recover North Americans' Lost or Stolen Handsets](#)

New service for mobile users

Yougetitback, an Irish company that offers "recovery services", has announced the North American availability of Mobile Superhero, presented as the perfect solution in helping users recover their lost or stolen electronic devices. Mobile Superhero can be installed on your phone, after a free account on the Yougetitback website is created. When the handset is lost or stolen, its owner can access the account and lock the phone, remotely, so that anyone who finds it can't use any of its functions and neither access personal data like contacts, emails and so on. The sole thing that the finder can do with the handset is call Yougetitback and report finding it - this is the only outgoing call permitted after the device is locked. Furthermore, users can retrieve their contacts from the "missing handsets", with only one click made through the Yougetitback account. According to the Irish company, until now, about 75% of the stolen or lost devices that have Mobile Superhero installed were in the end returned to their true owners. Frank Hannigan, CEO at Yougetitback, stated: "People carry a great deal of sensitive data in their mobile phones, PDAs and laptops, such as contacts, credit card numbers, banking details and sensitive business information - not to mention personal mementos like photos of their loved ones. Most people may not give a second thought to the valuable personal information stored in their devices - until they are misplaced, lost or stolen. Our service assures that all is not lost in such cases. If their devices go missing, we provide people peace of mind." Currently, the handsets that are compatible with Mobile Superhero include only devices from Nokia, Samsung, RIM and Panasonic and the full list looks like this:- Nokia N96, Nokia N78, Nokia N82, Nokia N95, Nokia N93, Nokia N93i, Nokia N92, Nokia N91, Nokia N90, Nokia N81, Nokia N80, Nokia N77, Nokia N76, Nokia N75, Nokia N73, Nokia N72, Nokia N71, Nokia N70, Nokia E90, Nokia E70, Nokia E65, Nokia E62, Nokia E61i, Nokia E61, Nokia E60, Nokia E51, Nokia E50, Nokia 7610, Nokia 6682, Nokia 6681, Nokia 6680, Nokia 6670, Nokia 6630, Nokia 6600, Nokia 6290, Nokia 6260, Nokia 6220, Nokia 6210, Nokia 6121, Nokia 6120, Nokia 6110, Nokia 5700, Nokia 5500, Nokia 3250 and Nokia 3230;- Samsung SGH-G810, Samsung SGH-D730, Samsung SGH-D720, Samsung SGH-i560, Samsung SGH-i550, Samsung SGH-i520, Samsung SGH-i450 and Samsung SGH-i400; - Blackberry 8800, Blackberry Curve series and Blackberry Pearl series;- Panasonic X800 and Panasonic X700. Apple's iPhone (both the new and the old editions) will also be included in the above list, as a version of Mobile Superhero for it is currently in the works. Mobile Superhero costs \$20 per year and for the moment a one-month free trial is available for all users. To get the software, you can access the Yougetitback website, found at [this address](#) (the free account mentioned before must be made in order to download the application).
